

GUNNISON VALLEY HEALTH

# ANTIBODY TESTING NOW AVAILABLE

LIMITED TESTS ARE AVAILABLE AND WILL BE ISSUED ON A FIRST COME, FIRST SERVE BASIS.

Gunnison Valley Health's Laboratory will begin COVID-19 Antibody (IgG) testing for the community. This test will help find out if you have antibodies to the virus that causes COVID-19. It is also designed to gather more epidemiological data for our hospital and community.

## WHAT ARE THE REQUIREMENTS?

- You did not need to test positive or negative for COVID-19 to participate in the antibody test.
- You must be at least 21 days from potential exposure or symptoms to ensure your body has had the chance to develop antibodies.
- Please refer to the Quick Screening Guidelines and Information for SARS-CoV-2 IgG fact sheet for more information.

## HOW DO I GET TESTED?

- Go to the North Entrance at the Hospital to register between 8am-4.30pm Monday to Friday. **Do not call as you do not need an appointment or a doctors order.**
- You will need to wear a mask, hand sanitize, take your temperature and fill out a symptoms form at the Hospital to register for the test.

## IF APPLICABLE, PLEASE BRING THE FOLLOWING INFORMATION WITH YOU:

1. Was an Actual PCR Test performed? If yes, provide the date and result.
2. Did you participate in the Antibody Clinical Trial? If yes, let the Lab know when you had your blood drawn.

RESULTS WILL BE AVAILABLE ON TUESDAY AND THURSDAY'S FROM 8-12.  
YOU MAY ONLY PICK UP RESULTS FOR YOURSELF PRESENTING ID.  
ALL RESULTS WILL GO TO PUBLIC HEALTH.

AT TIME OF SERVICE
