

KEEPING GUNNISON COUNTY OPEN IS IN YOUR (clean) HANDS

Your commitment to these 7 practices today will allow Gunnison County to remain open.

1

PHYSICAL DISTANCING

Starts at 6ft. and increases as activity level and group size increases.

2

FACE COVERING

Required in public and indoors; outdoors when physical distancing cannot be met.

3

SCREENING, ISOLATION, OR QUARANTINE

Screen staff prior to event; screen vendors, volunteers, and attendees as needed. Follow the Do Your Part to Slow the Spread protocols to stay safe and isolate/quarantine (or as directed by a public health nurse).

4

ENHANCED HAND HYGIENE

Handwashing is more important than ever to reduce COVID-19 transmission and is the most effective way to remove germs and soils from one's hands, hand sanitizer can be used when handwashing is not possible.

5

ENHANCED CLEANING/ DISINFECTION

Frequent cleaning and disinfection of high touch surface areas (i.e., high-use objects and surfaces) is critical to reduce COVID-19 transmission.

6

PROTECTING THE AT-RISK COMMUNITY

Providing alternate or remote access, taking extra precautions, and applying all Commitments to Containment to your event will help protect at-risk populations in our community.

7

ENHANCED VENTILATION

Use the Gunnison County's Interim Ventilation Guidance to apply ventilation improvements in your home and other facilities.

STAY STRONG, STAY VIGILANT.

Our ability to remain open depends on our ability to keep COVID-19 at bay.
